

## **General Information About Fatal Injuries**

The Census of Fatal Occupational Injuries, also referred to as the CFOI program, is a federal/state cooperative venture by all 50 states and the District of Columbia in partnership with the U.S. Department of Labor, Bureau of Labor Statistics. The program provides the most complete count of fatal work-related injuries available, through the use of diverse state and federal sources to identify, verify, and profile fatal work injuries. CFOI work-related fatalities include all work-related fatalities in Alaska, not just those covered by the Alaska Workers' Compensation Law.
